

Application

- ✓ Suitable for irrigation and treats waste water applications
- ✓ Best suited for pumped system and high flow rates

Features

- ✓ Removable element structure, easy installation and maintenance
- ✓ Dry-dial, Magnetic drive.
- ✓ Large flow capacity, small pressure loss
- ✓ Resist water hummer and pollution
- ✓ Vacuum sealed register ensure the dial keep free from condensation and keep the reading clear in a long term service
- ✓ Selected high quality materials for steady and reliable characteristic
- ✓ Technical data conform to international standard ISO 4060
- ✓ Water temperature : 0.1°C~50°C (0.1°C~90°C for hot water meter)
- ✓ Water pressure: ≤1.0Mpa (1.6MPa on request).
- ✓ In the lower zone from qmin inclusive up to but excluding qt is ±5%
- ✓ In the zone from qt inclusive up to and including qs is +2% (=3% for hot water meter)
